..... The best thing about this apartment is the exceptional peace and quiet – we heard no noise whatsoever. The worst thing was the lock on the door which caused a few problems when we first got there (Now replaced! – Ed.) The apartment was clean and very well appointed.

[There was] wonderful walking in the hills. We bought a book for 5 euros in the tourist office and this had a range of walks from easy to difficult throughout the area. Excellent value and good for exploring neighbouring towns. The lack of the need for a car was also a big bonus..
